DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 9, 11, 13 and 15, the phrases “upsetting a recess” and “upsetting the chamfered portion” are indefinite in that they suggest that the recess or the chamfer are already formed prior to the “upsetting” operation. It is the examiner’s understanding that the “upsetting” operation forms the recess or the chamfer.

3. Claims 9-15 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the forming of the cup body, cup portion and chamfered portion. It is not clear what the structural cooperative relationships of the elements are. Applicant discloses the final product in the preamble of the independent claims however there is no disclosure how the different elements are formed or what they structural cooperative relationships are.

Allowable Subject Matter

4. Claims 1-6 and 8 are allowed.

5. Claims 9-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

6. Applicant's arguments with respect to claims 9-14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
